

Claims

*Sub A/B1*  
What is claimed is:

*103*  
*62910*

1. A golf ball marker and holder comprising:  
a clip sized for attachment to a shoe;  
a marker having a solid face with an image at least partially  
covering a central portion and being removably attached to said clip;  
one of said clip and said marker having a ferrous portion; and  
an other of said clip and said marker having a magnetic portion.

*103*

2. The golf ball marker and holder of claim 1 wherein said clip  
defines a circular recessed cavity sized and positioned to receive a portion of said  
marker.

*103 Sub B21*

3. The golf ball marker and holder of claim 2 wherein said clip  
includes a magnetic portion and said marker includes a ferrous portion.

*Karveldy*

4. The golf ball marker and holder of claim 3 wherein a face of  
said clip includes at least one indentation positioned adjacent said circular  
recessed cavity.

*103*

5. The golf ball marker and holder of claim 4 wherein image  
includes an indicator of origin.

*Sub A/B3*  
*62910*

6. A golf ball marker and shoe comprising:  
a marker having a solid face with an image at least partially  
covering a central portion and being removably attached to a clip;  
one of said clip and said marker having a ferrous portion;

an other of said clip and said marker having a magnetic portion;  
and

(said clip being clipped to a shoe.)

7. The golf ball marker and shoe of claim 6 wherein said clip  
includes a magnetic portion and said marker includes a ferrous portion.

8. The golf ball marker and shoe of claim 7 wherein said clip  
defines a circular recessed cavity sized and positioned to receive a portion of said  
marker.

9. The golf ball marker and shoe of claim 8 wherein a face of said  
clip includes at least one indentation positioned adjacent said circular recessed  
cavity.

10. The golf ball marker and shoe of claim 9 wherein said image  
includes an indicator of origin.

11. A method of marking a golf ball comprising:  
detaching a ball marker having a solid face from a clip that is  
attached to a shoe;  
replacing said ball marker on said clip, at least in part by  
magnetically attaching said ball marker to said clip.

12. The method of claim 11 including a step of lifting said ball  
marker out of a recessed cavity defined by said clip.
